Early Career

Lux grew-up with the legend of her father, Dick, winning the inaugural Rose Cup in a Ferrari Testa Rossa. She pursued her own career in SCCA Club Racing in the Northwest before turning professional.

Through the Windscreen

Cindi Lux must balance her busy race schedule with a demanding business schedule. As one of the leading program managers in the world, Lux is charged dozens of times a year to premiere new product lines to the automotive media by the major manufacturers. In recent years, Miller Motorsports Park in Tooele, Utah recruited Lux to oversee their extensive racing school programs. She has developed the school to new heights including a Ford Mustang and off-road programs. Lux is also a managing partner of the Hahn Automotive family of dealerships in the Northwest. She lives in Aloha, Ore., a suburb of Portland, with her husband Fred. The two manage Lux Performance Group, LLC. together.

Current as of: January 1, 2020
